

TrainerDuties

Unofficial trainer duty viewer, developed by Kevin Baglieri. Not an official Riyadh Air product. Always confirm duties with the official roster.

Install on iPhone

1. Open the site link in **Safari**.
2. Tap **Share** → **Add to Home Screen**.
3. Open the app, enter the team password, select your name.

Update the roster

In the app: **Upload duties** → choose the latest CCT Duties Excel file. The uploaded roster is saved on that phone only.

The roster included in `index.html` is encrypted with the team password.
